### **Sonora and CS Medical Announce New Distribution Agreement for the TD-100 Automated Transesophageal Probe Disinfecting System**

Longmont, Colorado and Raleigh, North Carolina – May 26, 2009 – Sonora Medical Systems, the world's leading supplier of after market products, training, depot-level repair and support services and test equipment to the medical imaging market, and CS Medical, the leading innovator in automated transesophageal probe disinfection technology worldwide, are pleased to announce the signing of a multi-year distribution agreement where Sonora Medical Systems will begin selling the CS Medical FDA 510(k) cleared automated TEE probe disinfectant, the TD-100™, on June 1, 2009. The TD-100 is a microprocessor controlled automated disinfectant designed to provide high-level disinfection of transesophageal (TE) probes. The distribution agreement provides that Sonora may sell this device in all States outside of New England. *"The TD-100 is an exciting and unique product and we are delighted to represent CS Medical in offering it to our customers. Coupled with our other probe test devices such as the iTest and aPerio, as well as our TE probe repair offering, the TD-100 completes the TE care suite that will dramatically lower the cost to hospitals for maintaining these expensive probes."*, said G. Wayne Moore, President and CEO of Sonora Medical Systems. *"We are very pleased and excited to have Sonora represent our product in the echocardiography market. Sonora, based on its history, probe testing devices and TE probe repair capabilities, is a perfect distribution channel for CS Medical and the TD-100."*, said Mark Leath, Director of Sales and Marketing for CS Medical. Sonora will display the TD-100 at the upcoming American Society of Echocardiography meeting June 7th through June 9th in Washington DC in Booth 327

In addition to designing and manufacturing industry unique ultrasound test devices, Sonora Medical Systems, located at 1751 S. Fordham Street, Suite 100, Longmont, CO 80503, is the largest and fastest growing ultrasound and MRI depot-level repair company in the United States. Sonora's operations are certified to the ISO9001/13485 quality standard. Sonora Medical recently celebrated its 12-year anniversary in business.
