Sonora's President, G. Wayne Moore, Designated a Fellow of the American Society of Echocardiography

Longmont, Colorado – April 9, 2009 – Sonora Medical Systems, a leading supplier of after market products, services and test equipment to the medical imaging market, is proud to announce that its President and CEO, G. Wayne Moore has been designated a Fellow of the American Society of Echocardiography. The Society is an organization of almost 15,000 professionals committed to excellence in cardiovascular ultrasound and its application to patient care through education, advocacy, research, innovation and service to its members and the public. Fellow of the American Society of Echocardiography (FASE) recognizes the dedicated ASE member with a diverse set of skills and comprehensive knowledge of all aspects of echocardiography. For Researcher members of ASE, the Fellow designation recognizes extraordinary commitment to the field of Echocardiography and demonstrated achievement through cardiovascular ultrasound published articles, echocardiographic research, and commitment to on-going education in cardiovascular ultrasound by teaching or providing lectures at the University or Scientific Meeting level. *“I am very honored to have been designated a Fellow of the ASE and am grateful to the world renown cardiologists who wrote letters of recommendation on my behalf. Since beginning my career in this field more than 25 years ago I have seen some very amazing advances in technology and am proud to have been involved in the development and application of that technology. The ASE is not only an important focal point for the development of echocardiography imaging and Doppler standards, but is, in my opinion, the voice for echocardiography”* said G. Wayne Moore, FASE, President and CEO of Sonora.
